

Boxstorm is a cloud-based inventory management solution, and part of Fishbowl's business automation platform. Use Boxstorm from any computer, tablet, or smartphone that has an Internet connection. You can currently use it to track inventory, use different units of measure, move and cycle count inventory, conduct inventory audits, and more.

HERE ARE ALL OF THE FEATURES CURRENTLY IN BOXSTORM:

AUDITS	Unit of measure conversions specific to parts	Sales orders SO invoices
All modules have an audit		Taxes
INVENTORY	LOCATIONS	SETTINGS
Add inventory	Nested (go as deep as you want)	Users can change the name of:
Average cost	PURCHASING	<i>Items</i>
Cycle count	Discounts	<i>Location groups</i>
Inventory audit (when, where, by who, how much)	Print receiving tickets	<i>Locations</i>
Move	Purchase orders	UNIT OF MEASURE
Remove inventory	Vendors	Ability to set a default UOM
Total cost	REPORTS	UOM conversions
ITEMS	Inventory reports	USERS
Data related to items, such as SKU, UPC, and URL	Purchase order reports	Multiple users can be set as administrators
